ST. CLAUDINE: A RADIANCE OF FAITH AND FORTITUDE

"Light the world with faith, compassion and love."

The students of Class 8 exuberantly celebrated the feast of St. Claudine Thévenet on 31 January 2025 with deep reverence and enthusiasm. The event commenced with a heartfelt welcome speech, setting an uplifting tone for the occasion. This was followed by the ceremonial lighting of the lamp, a luminous symbol of wisdom and enlightenment. A compelling play depicting the life of St. Claudine Thévenet mesmerized the audience, bringing to life her unshakable faith, boundless compassion, and unwavering commitment to serving others. A graceful prayer dance beautifully reinforced her core teachings, instilling a profound sense of spirituality and gratitude among the students. The celebration echoed and strengthened virtues such as forgiveness, patience, kindness, selflessness, and service to the marginalized—principles St. Claudine embodied throughout her life. The event was a moving tribute to her extraordinary legacy, inspiring all to follow in her footsteps and foster a more compassionate world.

On the same day St. Patrick's Junior College proudly celebrated Ma'am Arpita Chatterjee's 25-year journey of inspiring young minds. AULD LANG SYNE: THE STORY OF NEW YEAR'S

From Dawn to Midnight: The Evolution of New Year's Celebrations has been encapsulated here:

New Year's celebrations date back to Mesopotamia (2000 BCE), where Babylonians marked the spring equinox with the Akitu festival, symbolizing renewal. Egyptians (2700 BCE) welcomed their "New Year" with the flooding of the Nile, tied to Sirius' rising. Greeks (600 BCE) honored Dionysus, while Romans (45 BCE), under Julius Caesar, set January 1st as the official New Year, dedicated to Janus, the God of transition.

During Medieval Europe, New Year's shifted between December 25th and March 25th, until Pope Gregory XIII (1582) reinforced January 1st with the Gregorian calendar. The 19th-21st century saw fireworks, resolutions, and global traditions like Times Square's ball drop and "Auld Lang Syne."

Across eras, New Year's has transformed, but its essence remains unchanged—a timeless celebration of fresh beginnings.

BLOCKBUSTER BULLETIN

"The Mehta Boys" is not just a film; it's an emotional boxing ring where punches are thrown, not with fists, but with words soaked in years of unsaid emotions. Boman Irani, in his directorial debut, masterfully crafts a father-son battle that feels too real to be fiction. Avinash Tiwary shines as the conflicted son, matching Irani's seasoned brilliance. The 48-hour confrontation feels like a ticking time bomb—tense, tender, and totally gripping. It's a therapy session wrapped in cinematic brilliance. If daddy issues had a genre, this would be its gold standard. Watch it, feel it, and maybe call your dad!"

"Mrs." is a searing portrayal of domesticity's silent suffocation, with Sanya Malhotra's compelling performance exposing the weight of patriarchal traditions. Director Arati Kadav masterfully adapts the Malayalam original, The Great Indian Kitchen, into a Hindi narrative that resonates deeply. The film's brilliance lies in its meticulous depiction of daily drudgeries—clinking utensils, leaking sinks, and unspoken expectations—that erode a woman's spirit. Malhotra captures the simmering frustration and resilience of reclaiming identity. Mrs. is a mirror to societal norms, challenging viewers to confront ingrained biases.

"Chhaava" aspires to be a grand cinematic tribute to Chhatrapati Sambhaji Maharaj, yet it often succumbs to excessive melodrama. Vicky Kaushal's portrayal is undeniably intense, capturing the warrior's valor, but the film's over-reliance on high-decibel dialogues and relentless action sequences diminishes its emotional impact. Director Laxman Utekar's vision is ambitious, but the screenplay lacks depth, offering a superficial glimpse into the Maratha legacy. A.R. Rahman's score, while melodious, occasionally feels out of sync with the period setting. Despite its flaws, "Chhaava" manages to engage, primarily due to Kaushal's compelling performance and a climactic battle that showcases the film's potential when restraint is exercised.

EDITOR IN CHIEF'S MESSAGE

Dear Readers,

In our ever-evolving world, creativity, innovation, and teamwork are the cornerstones of progress. They shape not just ideas but how we bring them to life.

Creativity sparks new possibilities—it dares us to dream beyond the ordinary, challenge conventions, and express ideas that inspire change. Every great achievement begins with a mind unafraid to think differently. Innovation is where ideas meet reality. It's about embracing change, solving problems, and turning challenges into opportunities. From science to the arts, innovation propels us forward, redefining what's possible.

Yet, creativity and innovation flourish best in the spirit of teamwork. Collaboration unites diverse perspectives, strengths, and skills, creating something far greater than any individual effort. When we support, respect, and learn from one another, we lay the foundation for lasting success.

As we move ahead, let's embrace these values, push our limits, and work together to shape a brighter future.

Happy reading!
